EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Liam McDowell on 07/08/2004.

The application has been amended as follows:

Claim 15 has been cancelled

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: The closest prior art to that of the instantly claimed invention is JP11-186033 to Takahashi. Takahashi teaches an Iron carbide magnetic film comprising martensite. Though the direction of the easy axis of the film is not specified in Takahashi, the film is disclosed as having a body centered tetragonal crystal structure and positive magnetocrystalline anisotropy. As described in the applicant's declaration and confirmed by the prior art, one of ordinary skill in the art would recognize that a magnetic thin film exhibiting positive magnetocrystalline anisotropy and a body centered tetragonal crystal structure will have an easy axis oriented perpendicular to the surface of the plane of the film. Thus, Takahashi does not teach the limitations of the instantly claimed invention, which require an iron carbide film having a martensite phase as a principal phase, wherein the iron carbide film has its easy axis oriented in the plane of the film. Further, there is no

teaching or suggestion in the prior art that would motivate one of ordinary skill in the art to modify the teachings of Takahashi so as to arrive at the instantly claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nikolas J. Uhler whose telephone number is 571-272-1517. The examiner can normally be reached on Mon-Fri 7:30 am - 5 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Deborah Jones can be reached on 571-272-1535. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
